U. S. REACHES WAGE AGREEMENT WITH ATLANTIC SEAMEN

PACIFIC IS EXPECTED TO FOLLOW SUIT

Articles Call for Pay of \$60 a Month for Sailors With Extra Compensation for Men on Ships Navigating in the War Zone

WASHINGTON, D. C., Aug. 10.—American seamen have come to an agreement, it was learned today, with the government regarding wages and conditions on merchantmen during the war.

The agreement reached between the government and representatives of the seamen's union was signed by 16 representatives of employers, employees and government agents.

The Pacific coast was not represented, but it is expected will enter into the bargain, and bind themselves to abide by the agreement.

The wages of sailors and firemen were fixed at \$60 a month, coal passers \$50, oilers and water tenders \$45, boatswains \$70 and carpenters \$75. Overtime due to loading and discharging cargoes will be paid at the rate of 50 cents per hour.

Bonuses for sailors on ships trading in the war zone was agreed on at 10 per cent, with \$100 compensation for loss of personal effects should the ship be sunk by torpedo or other war risks.

The wages of stewards and cooks remain unchanged.

May Prohibit Use of Grains To Make Booze

Enforcing of Such Regulations Would Seriously Affect Operations of Local Beer and Sake Breweries—No Action Unless Public Sentiment Demands It

Public sentiment and opinion demand it, the territorial food commission will consider exercising the power given it by the 1917 legislature to prohibit in Hawaii the use of grain and other foodstuffs for the manufacture of liquor.

When asked by the Star-Bulletin if the commission would consider exercising this power, J. F. Child, assistant executive officer, said:

"The commission certainly will if public sentiment demands it, and if the necessity for such an action is shown. The commission is here to work in the interests of the public."

Should the commission put into effect regulations prohibiting the use of grain for the manufacture of liquor, the Honolulu Brewing & Malting Co. and the local Japanese sake breweries would be affected, and would be compelled to suspend operations during the period in which the regulations were in effect.

In part, the act of the 1917 legislature creating the territorial food commission outlining the powers of the body, says:

"To control and direct the use to which food may be put within the territory and to forbid the use of rice, grain and other food for the manufacture of intoxicating liquor as defined in section 2101 of the revised laws."

Section 2101 defines "intoxicating liquors."

Attorney A. L. Castle, executive officer, said today that the commission would undoubtedly consider exercising of this power not alone if public sentiment demanded it, but if the necessity for such an action was clearly shown.

Asked today if the promulgation of a regulation of this kind would affect the Honolulu brewery, St. C. Sayres, secretary and manager of the company, said he was not able to answer.

JOHN F. HALEY REVENUE HEAD PASSES AWAY

JOHN F. HALEY

John F. Haley, collector of internal revenue, died at 12:15 o'clock this afternoon, following an illness of several weeks. A marked change for the worse came during the night, and it was realized this morning that he could probably not last through the day.

Haley's disease, accompanied by a general run-down condition, was directly responsible for death. Continually and in a determined manner he has fought against ill health, his courageous spirit doing much toward keeping him up and around.

Funeral services for the late John F. Haley will be held from the Williams undertaking parlors on Sunday afternoon at 3 o'clock. The services are in the hands of local Knights of Pythias lodges—Mystic Lodge No. 2 and William McKinley Lodge No. 8. Collector Haley was a member of Amity Lodge No. 8, Reno, Nevada. It was his last wish that he be buried in Hawaii.

He was compelled to leave active office work some weeks ago, directing it more or less, however, from his sick bed. Occasionally he rallied from the severe attacks, but those who knew his case most closely realized recovery was not possible. This morning, evidently realizing that the end was near, he summoned First Deputy Ralph S. Johnson and explained his last wishes.

News that "Jim" Haley is dead will cast a gloom over the city for the sunny-hearted collector was known to a host of friends, and none feel the loss more keenly than newspapermen here. Being an old newspaperman himself, Haley always had time for a friendly chat with the reporters that dropped into his office.

Haley knew the "game" from the ground up, having set type in printing shops as a small boy. Generally he had a sure "tip" for a story when news was scarce, and he believed in playing the game square.

John Francis Haley was born in San

MEAD HEADS LABOR BRANCH OF FOOD BODY

Commission Decides to Admit Members of Press to Meetings; Longley Made Member of Marketing Committee

A resolution providing that hereafter meetings of the territorial food commission and its committees shall be open to representatives of the press, was passed at a meeting of the commission this morning, following a recommendation made by Attorney A. L. Castle, executive officer.

Royal D. Mead, director of the Hawaiian Sugar Planters' Association's bureau of labor and statistics, was appointed chairman of the new committee on labor of the territorial food commission at a meeting held today. Mr. Mead will assume his new duties at once and will appoint as members of his committee as many persons as he may need to assist him.

In a letter sent to Mr. Mead by the commission, his attention is called to a report by A. Hebard Case, agent for the commission on Kauai, which says that 435 acres of additional land will be available for planting to rice on the Garden Isle in 1918 providing labor may be secured to work the fields. Mr. Case further points out that labor for the rice fields at the present time is scarce.

A. T. Longley, superintendent of the territorial marketing division, was appointed a member of the marketing committee, and within the next few days the committee will meet to select a chairman to take the place of Attorney A. L. Castle, now executive officer. In appointing Mr. Longley, the opinion was expressed that the territorial marketing should have a voice in the committee so that it might come in closer touch with the commission, because of the fact that, through it, a large quantity of island produce is distributed and marketed.

Mr. Longley may not remain long, however, as he with the commission hopes to enter the reserve officers' training camp at Schofield Barracks. He will not resign from the market work if taken into the camp, he said today.

FIVE ALLEGED SLACKERS ARE JAILED AT HILO

Prisoners of Sheriff Pua, Judging From Names, Appear to Be Filipinos; Losing Registration Cards May Bring Trouble to Owners

FIVE alleged slackers, the first to be arrested in the territory, have been taken into custody at Hilo by Sheriff Sam K. Pua, according to a wireless message received late yesterday afternoon by the central board of registration. Sheriff Pua's message says:

"Arrested the following slackers last night: Pio Macello, Takonda Pascual, Demiderio Gilliarima, Faustino Corododan and Anaseto Rafael."

Judging by these names the five men are all Filipinos. The law provides imprisonment for them for a period of one year at hard labor, if it can be proved that they have willfully avoided registration.

There is a possibility that the five may have been ignorant of the registration laws and did not understand that they were breaking them in failing to get their names on the books. That, however, remains to be seen. Executive Officer F. J. Green said today that every opportunity will be given the men to prove their innocence, but that the law will be strictly enforced if it is found that they have evaded registration willfully.

According to Chairman Will Wayne of the registration board, altogether too many registered men are losing their registration certificates.

Yesterday afternoon Charles Stillman of the department of public instruction found a certificate lying on the floor in his office. A typewriter repairer at work there shortly before had lost it from his coat.

Mr. Stillman decided to teach the young fellow a lesson, so he telephoned him this morning asking him if he had registered.

"We have no record of it down here," said Mr. Stillman in a stern voice, and made an appointment for the typewriter man to be at the capitol. Then he summoned Chairman Wayne over.

Mr. Wayne gave back the certificate after he had made some inquiries as to its loss, and the young fellow left vowing he'd sew it into his coat lining before he took another such chance.

SHIP CONTROL MAY CUT INTO FREIGHT RATES

WASHINGTON, D. C., Aug. 10.—That a central control of the world's tonnage would bring a sharp reduction in freight rates was the consensus of opinion at a conference of the shipping board with royal British mission today. It is understood the British mission proposes that the United States enter into an inter-allied chartering conference with the object of forcing neutrals within the operation of the shipping board through the control of exports and bunkering.

Police Officer Grilled At Civil Service Hearing

Testimony Introduced Reveals Officer Made Arrest Without Proper Warrant or Instructions

A case of where a police officer was sent on his beat without proper instructions from his superiors was brought to light Thursday afternoon at the public hearing held by the civil service commission to investigate the charge of Attorney Lorin Andrews that his client, John Sanborn, was illegally arrested by Officer Holstein. Whether the arrest was illegal or not has been left to the city and county attorney's office to decide, for the members of the commission disagreed on the interpretation of the law.

The testimony introduced, however, showed that Officer Holstein, during the time of the arrest and his subsequent actions at the police station, had anything but a clear idea of what should be done.

Samuel Gompers sent telegrams to the carpenters' leaders yesterday urging that they leave their demands to a committee of arbitration.
